

MotionMount (NEXT 7355) - the TV wall mount that turns automatically

Article nr 8734070
Colour Black

Key benefits

- The viewing position can be adjusted at any moment, manually or with the app
- Up to 10 pre-programmable positions (via app)
- Turns automatically when the TV is switched on and off
- Easily mounted, plug & play installation

Add automatic movement to turn your TV

The MotionMount by Vogel's is a flexible TV mount that offers maximum usability. This motorised TV mount automatically turns towards you no matter where you're sitting in the room and up to 120 degrees to the left or right. After you have turned on the TV, the MotionMount moves to your preset viewing position in one fluid motion. When you turn the TV off, the screen and MotionMount gracefully move back against the wall. All without the need for an extra remote control. Even mounting and installing the MotionMount is very easy. Everything is plug & play: 1 plug in the outlet and it works!

Everyone can programme their own viewing position

You can gain access to additional options using the accompanying smartphone/tablet app, which is available free of charge in the App Store and Google Play Store. The app allows you to set one or more viewing positions for everyone in the house, with a maximum of ten. The TV glides to the left or right, forwards or backwards with the greatest of ease!
