

MotionSoundMount (NEXT 8375) - the TV wall mount with integrated sound that turns automatically

Article nr 8737080
Colour

Key benefits

- The first wall bracket with integrated soundbar
- Sound is adjusted with the TV remote control
- Wireless subwoofer can be placed anywhere
- Bluetooth audio streaming
- Unsurpassed viewing and sound, anywhere in the room
- Easily mounted, plug & play installation

For the ultimate experience

The MotionSoundMount is a flexible TV mount with integrated soundbar and wireless subwoofer! This state-of-the-art wall mount allows you to add impressive sound to your TV - just like with the Vogel's SoundMount. But the MotionSoundMount has a unique feature that automatically turns the sound directly towards you. The sound of the film, concert or TV series is directed 100% at you. You can also easily stream your favourite music to the Soundbar from your smartphone or tablet. Everything you need for the ultimate viewing and listening experience!

Maximum usability

The MotionSoundMount has an impressive level of usability. This motorised TV mount automatically turns towards you no matter where you're sitting in the room and up to 120 degrees to the left or right. After you have turned on the TV, it moves to your preset viewing position in one fluid motion. All without the need for an extra remote control. When you turn the TV off, the screen and MotionSoundMount gracefully move back against the wall. Even mounting and installing the MotionSoundMount is very easy. Everything is plug & play: 1 plug in the outlet and it works!

Everyone can programme their own viewing position

You can gain access to additional options using the accompanying smartphone/tablet app, which is available free of charge in the App Store and Google Play Store. The app allows you to set one or more viewing positions for everyone in the house, with a maximum of ten. The TV glides to the left or right, forwards or backwards with the greatest of ease!
